AFCEA Belvoir Industry Days

Distribution Statement A. UNCLASSIFIED//Approved for Public Release

Who We Are

U.S. ARMY

WE ARE the Army's trusted network and software acquisition professionals.

WE BELIEVE that the Soldier is the centerpiece of everything we do.

WE SUPPORT the Total Army and serve as a committed teammate.

WE ENSURE that the Army's networks, logistics, HR, finance, business systems and cyber defense support anything a **Soldier** and the **Army** need to do the job, every day.

WE GET Soldiers to the fight, support the fight and bring them home safe.

WE ARE PEO EIS.

Connecting the Army. Working for Soldiers.

Program Executive Officer
Ms. Cherie A. Smith

Product Lead
Computer Hardware, Enterprise Software & Solutions

Mr. John Swart
Product Lead
Technology Applications Office

Mr. Palmer Mitchell
Product Lead
Enterprise Computing

Ms. Sarah Bearden
Product Lead
Enterprise Content Collaboration & Messaging

APEO Networks, Cyber, & Services Focus

- **Advocacy** for resourcing, requirements, governance, and innovative solutions in these portfolios
- **Collaboration** with Network and Synthetic Training Environment Cross Functional team
- **Pathfinders & Pilots:** Collaboration with CIO/G-6 and ARCYBER on Army Cloud and Enterprise It as a Service (EITaaS) Pilot

Advocacy

- Maintained essential resourcing (I3MP and DCO) in the face of budget pressures for other Army priorities
- Engagement with Army and Congressional stakeholders on efficacy of OTA and CHES contract vehicles to streamline acquisition and contracting

Collaboration

- PEO EIS personnel embedded with Network and Synthetic Training Environment (STE) CFTs
- Developing pilot architectures for STE proof of concept
- Remain engaged to reduce Tactical and Enterprise Network seams

Enterprise IT as a Service: Next Steps

- Modernizing and improving the Army's network readiness is critical to the Army's overall readiness—and crucial to maintaining our Army's advantage in an era of great power competition
- Army will conduct pilots using Other Transaction Authorities in FY19, AFC will be the first site, others are pending senior leader decision.
- PEO EIS is working with ARCYBER & CIO/G6 on the requirements for the EITaaS pilots
- Army will release a Request for Information followed by engagements with industry partners in the coming weeks.

Accomplishments: *Networks, Cyber and Services*

- IT Modernization
- 1st Network Requirements Document
- CIO/G6 Programmatic and Functional Management Partnership
- Restructured Networks under one Program Management Office
- Expanded Defensive Cyber Operations
- ALTESS Cloud Center of Excellence
